Run by - MODEL EDUCATION SOCIETY, ROHTAK

Summer Vacation Home Work (2022-23)

Class- Nursery

General Instructions:

As we all know about the decreasing water level, its time for each one of us to make our contribution towards nature and the best possible way out is to grow more and more trees. The easiest way to do this is to sow the seeds of every fruit we enjoy the pulp there of (Mango, Orange Papaya, Watermelon, Cherry, Peach, Plum etc). The nature will surely return the purest blessings of this simple and social deed.

Let's play our part honestly to save our nature & our existence.

And not to forget to save our birds from this scorching heat, an idea to keep some water on the roofs or hang it on trees may be the best thing we can do swiftly and consistently. So, take out some time to sow at least 5 seeds of different fruits and put some water to quench the thirst of birds and animals around. So let's take a pledge to return to our 'Mother Nature' in best possible way.
